## PROFESSIONAL SUMMARY

Full-stack developer with over 2 years of experience in building scalable web applications using technologies like React.js, Next.js, and Node.js. I excel integrating third-party services and improving application stability. I thrive in Agile teams, focusing on delivering impactful features and ensuring excellent user experiences. I am quick to learn new technologies and adapt to dynamic environments

## SKILLS

---

**Frontend:** React.js, Next.js, HTML5, CSS3, Tailwind CSS, Bootstrap, JavaScript (ES6+), Shadcn UI

**Backend:** Node.js, Express.js, REST APIs, JWT Auth

**Databases and ORM:** MongoDB, SQL, Prisma

**State Management & Data Fetching:** Redux, Redux Toolkit, Zustand, React Query

**Tools & Technologies:** Git, GitHub, Clerk, Postman, VS Code

**Soft Skills:** Agile Development, Problem Solving, Fast Learner, Debugging

## WORK EXPERIENCE

---

### FULL STACK DEVELOPER | AJILEDONE

(Aug 2025 – Present)

**Technologies Used:** Next.js, Node.js, Express.js, React.js, Tailwind CSS, React query, Prisma, Shadcn ui, Stripe, Zustand

- Developing and maintaining a Human Resource Automation (HRA) web application to streamline employee management and HR operations.
- Designed and implemented RESTful APIs using Express.js and Prisma for secure and efficient data management.
- Built responsive UI components using Next.js, React.js, and Tailwind CSS.
- Established role-based authentication and authorization to control access for employees, managers, and admins.

### SOFTWARE ENGINEER | PURECODE

(2023 – July 2025)

**Technologies Used:** React.js, Next.js, Node.js, Express.js, Stripe, MailerLite, MongoDB, Redux Toolkit, Zustand

- Integrated payment systems, handled Stripe payment gateways to ensure smooth and secure transactions for users
- Initiated MailerLite email automation workflows to increase engagement.
- Fixed over 100 bugs, improving stability and user experience across the application.
- Collaborated with UI/UX designers to ensure pixel-perfect implementation of designs.
- Participated in API design discussions and collaborated with backend teams to ensure security and performance.

## PROJECTS

---

### PURECODE.AI ([LINK](#))

**Technologies:** - Next.js, React.js, HTML, CSS, Tailwind, Shadcn Ui, JavaScript, React query, Zustand, Node.js

- Led redesign of the website, improving UI/UX, animations, responsiveness, and performance.
- Established Stripe and Paddle to support secure, scalable online transactions.
- Worked with the team to ensure the website was responsive, adapting seamlessly across multiple devices and browsers, while prioritizing accessibility and performance.
- Enhanced with scalability and maintainability in mind, utilizing best practices in development to facilitate future updates and enhancements.

### Empyreanui ([LINK](#))

**Technologies** Next.js, React.js, HTML, CSS, Tailwind, Shadcn Ui, JavaScript, Zustand

- Handled complete user management, including user authentication, authorization, and login verification using JWT and bcrypt, a user-friendly and responsive interface using React to ensure a seamless experience across different devices and screen sizes.

- Engineered the solution for scalability and maintainability in mind, utilizing best practices in both frontend and backend development to facilitate future updates and enhancements. bcrypt for secure password hashing.
- Built frontend and backend integrations in Next.js, ensuring seamless user flow and smooth login/logout functionality.
- Ensured optimal user experience with form validations, error handling, and secure session management.

## EDUCATION

---

### Anurag group of Institutions, Hyderabad

2018 - 2022

B.Tech (Bachelor of Technology) Mechanical Engineering (ME)

## ACCOMPLISHMENTS

---

### FREELANCE FRONTEND DEVELOPER | KYNO HEALTH

**Technologies:** React.js, API Integration, Razorpay, Map Integrations, JavaScript, Material UI, CSS

- Developed a doctor booking system, allowing users to book appointments with doctors through an intuitive UI
- Incorporated Razorpay for secure and seamless payment processing during the booking flow, ensuring smooth transactions.
- Integrated Google Maps API to display doctors' locations and availability in real-time, allowing users to choose the most convenient location.
- Created a user-friendly and responsive interface to ensure accessibility and ease of use across devices.
